VI TRANSATLANTIC SUMMIT

Madrid 2024
December 1 and 2

“

Freedom, Sancho,
is one of the most precious
gifts that heaven has
bestowed upon men”

Don Quixote, by Miguel de Cervantes

The Political Network for Values is a transatlantic coalition of political leaders committed to the defense of universal human rights, especially those related to the protection of life, the family and fundamental freedoms. Through its Summits, the Network provides a space to meet and exchange ideas and political experiences.

In the midst of intensifying threats to freedom, the PNfV and its allied organizations are convening a major Summit at which elected representatives from Europe, Africa and the Americas will send a strong message to the world, for freedom to defend life and encourage its flourishing.

The participants will share political initiatives for the strengthening of fundamental freedoms and for the care of every life, at all its stages, in particular the most vulnerable and defenseless.
